

Dr. Ronni Brown

Ronni Brown, DDS, MPH, FADI is a dentist, researcher, speaker and author who bridges the gap between dentistry, public health, and substance abuse.

Dr. Brown is a leader in dental public health with more than 25 years of experience developing strategic action plans and delivering high-quality dental care to at-risk populations impacted by incarceration, poverty, and substance-use disorders. She recognizes both the satisfaction and challenges in improving “one smile at a time” and advocates for population-based strategies that improve the “oral health of all,” as a clinician, researcher, speaker, consultant, and author.

Dr. Brown is recognized as a leading expert on the oral effects of substance abuse and her research on the impact of drug-use patterns on “meth mouth” severity has garnered international attention. She is the author of the #1 best seller, *“A State of Decay: Your Dental Guide to Understanding and Treating Meth Mouth”*.

Dr. Brown earned a bachelors, dental, and master’s degree in public health from the University of California, Los Angeles, completed a post-graduate dental practice residency at the Veteran’s Administration Medical Center, San Francisco and a dental public health residency at the University of California, San Francisco.

She is a member of the American Dental Association, California Dental Association, American Association of Public Health Dentistry, Dental Speaker’s Bureau, and the Academy of Dentistry International.

“Dr. Brown is a thoughtful and enthusiastic speaker. She intersperses research with patient vignettes to provide a unique and evidence-based presentation that keeps all audience members engaged.” *Jennifer Clemens, DMD, MPH*

Testimonials

"I knew that the workshop was going to be fabulous but I could not imagine how fabulous it turned out to be in every aspect. Dr. Brown has a wonderful workshop leadership style and has mastered adult learning. I enjoyed the workshop tremendously." *Pam Alston, DDS*

"This workshop is educational, interactive, and fun! It was the first 2-day course that I did not want to miss. I walked away with a toolbox of information that was current and relevant and want to share with my patients and colleagues."
Sonya Dunbar, RDH

"Dr. Brown's teaching style is rare. This is the first workshop that I have ever attended that kept me completely engaged for 2 days! The information was practical for day-to-day dentistry and the group exercises solidified my learning and comfort with the subject! Thank you, Dr. Brown. You did a great job."
David Duhon, DDS

"I had an awesome time and learned a lot. The format was really engaging and interactive. This workshop will help me properly develop treatment plans for patients who are using methamphetamine." *La Ron Cotton, DDS*

"I loved the workshop. It was truly a wonderful experience. I really appreciated the treatment strategy part and how to treat the high caries rate and salivary flow issues of methamphetamine users. The breakout groups were great. I now understand about both addiction and sobriety and the challenges associated with both. Dr. Brown shed a whole new light on the topic of addiction and dentistry." *Monica Bruce, DDS*

Testimonials

CONTINUED

"Dr. Brown was an amazing, intelligent, and passionate speaker and I learned a lot listening to her tonight. Her commitment to patient education was very inspiring. She showed that passion plus a well thought out plan can be effective in improving people's oral health and lives." *A. Tumanyan*

"Our group of dentists, hygienists, and office staff was so impressed with her Evidence-based Dentistry presentation that we invited her back for her Meth-Mouth presentation and were not disappointed." *Jennifer Clemens, DMD, MPH*

"Dr. Brown is an excellent speaker who empowers her audience with useful information." *Contra Costa County Dental Society*

"The reviews for your course were outstanding. Your presentation was a success at our annual meeting." *Amit Desai, DMD, Coordinator; Connecticut State Dental Association*

"Dr. Brown's passion and depth of knowledge make the course interesting and engaging. Dr. Brown helped me feel more comfortable identifying meth use and talking to my patients about meth. The patient testimonials were informative and helped provide a context for the course. I now feel that I have a practical approach to treatment and a better understanding of these patients."

Leslie McGarvey, DDS

"You are a phenomenal speaker and our team was lucky to have you." *Tanya Clark*

"Dr. Brown, it was a pleasure to have you. All attendee comments were positive. A few of the comments: 'Very informative. Interesting subject. Clear information. Excellent topic and the speaker was amazing. Should be mandatory course in all schools.' Thank you for coming!"

Dan Hinrichs, Executive Director; Humboldt Del-Norte Dental Society
